Animal Welfare Regulations 2018

It is the "Licence Requirement" that each cat must be provided with a separate unit except that the cats from the same household may share a unit of adequate size with the owner's written consent. The cats must be provided with separate beds.

Under the terms of the licensing agreement, Harvesters Farm Cattery is required to board pets in individual units (i.e. cabin(s)). Exceptionally, with the express, written permission of the pet owners, the cats, of one household may be boarded in the same cabin(s). If you wish your pets to share the same cabin(s), please indicate your requirement by signing below. Please also understand that by signing you also give consent to separate any cat if their behaviour has caused concern for their welfare and it is felt it is in the animals best interest to be separated.
